## **HCPA President & CEO Steve Caldeira Named to *The Hill's* List of Top Lobbyists**

---

Washington, D.C. – The Household & Commercial Products Association (HCPA) is pleased to share that HCPA President & CEO Steve Caldeira was named as one of the top lobbyists of 2018 by the prestigious and highly-read Washington, D.C. publication, *The Hill*.

As *The Hill* stated when the list was released, “The lobbying world faces new pressures and is under greater scrutiny than ever. But the select few on the list have demonstrated their ability to wield influence and deliver results on Capitol Hill and in the administration on behalf of clients and groups seeking a voice in Washington. The nation’s capital is teeming with lobbyists and influencers, but when the stakes are at their highest, these are the players at the top of their game, known for their ability to successfully navigate the byzantine and competitive world of federal policymaking.”

“This recognition by *The Hill* is a direct reflection of the ongoing and strategic efforts of the HCPA team that is strongly supported by our Board of Directors,” said Steve Caldeira, HCPA President & CEO. “Our dedicated and experienced staff of advocacy, communications and public affairs professionals work tirelessly to ensure that every legislator, at every level of government, truly understands the economic impact of our industry, and the issues that are most important to HCPA’s member companies.”
