HCPA Commends the U.S. House of Representatives for Passing \$2 Trillion Economic Relief Package In Response to COVID-19 Pandemic

Washington D.C. – The Household & Commercial Products Association (HCPA) released the following statement today, attributed to Steve Caldeira, President & CEO of HCPA, after the U.S. House of Representatives passed a \$2 trillion stimulus bill in response to the COVID-19 pandemic. The bill will now go to the President’s desk to be signed.

“We commend the U.S. House of Representatives for passing the largest emergency aid package in U.S. history, helping to boost the U.S. economy and stabilize households and businesses during the COVID-19 pandemic.

The relief package will help ensure that hard working Americans have funds to weather this storm, while also providing financial resources to large and small businesses to keep the economy running. HCPA members continue to step up production of the cleaning and disinfecting products needed to provide safe and clean environments for consumers and workers. We applaud the U.S. House of Representatives for coming back to D.C. to pass this landmark legislation which highlights the importance of the pandemic that we are all working hard to mitigate.”

###

About HCPA

The Household & Commercial Products Association (HCPA) is the premier trade association representing companies that manufacture and sell \$180 billion annually of trusted and familiar products used for cleaning, protecting, maintaining, and disinfecting homes and commercial environments. HCPA member companies employ 200,000 people in the U.S. whose work helps consumers and workers to create cleaner, healthier and more productive lives.
