

# PURE TECHNOLOGY THAT PRODUCES BEAUTIFUL RESULTS.

[DiversifiedCPC.com](http://DiversifiedCPC.com)

## The power of propellants

Many times when a salon stylist sprays someone's hair, a hiker applies bug spray before heading into the woods, or someone sprays a frying pan with cooking spray before making a meal, they are using an aerosol propellant that Diversified CPC International made safer, cleaner, and more reliable.

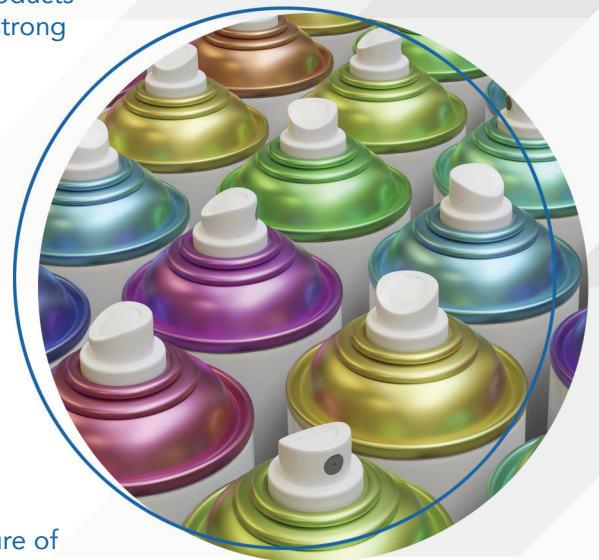

Consumers around the world may not be aware of the vital role Diversified CPC International plays in the safety and stability of the products they use every day. But, because of our pure product innovation and strong partnerships with our customers and suppliers, they don't have to.

We supply and distribute the highest purity of propellants to domestic and export markets. Our customers have come to rely on our technology because of its chemical stability, and environmental acceptability.

## A history of quality and innovation

Originally founded as the "Chemical Products Company" in 1964, Diversified CPC International first supplied alcohol and general chemicals to the market.

As propellant pioneers, our founders went on to revolutionize the future of the aerosol industry by developing clean hydrocarbon propellants, as well as partnering with industry leaders to replace harmful chlorofluorocarbons with the now environmentally friendly fluorocarbons.

## Customer-Driven Service

We are committed to having the most reliable, knowledgeable, and user-friendly customer support in the industry. Taking care of all our clients' needs is paramount to the success of our company. Here at Diversified CPC International, we do not end our service to a client when a purchase is made — the sale is only the beginning of our relationship with you! Our GOAL is to support our products and services so we can be your "Total Aerosol Propellants Provider." To achieve this goal, we have hired only the most highly experienced personnel in all related disciplines to handle your requests and provide you with the best answers possible. We offer the best service lead times in the industry. In fact, we are able to deliver our products with 24 to 48 hours from when the order is placed, often within a 30-minute window.

## Reliable Supply

Over the last 5 years we've made significant investments to expand our storage capacity in order to ensure we have the right inventory at the right time every time. We have six plant locations across the U.S. that process, store, and distribute our products. Our dedicated fleet of tanker trucks and rail cars are dispatched across America to ensure our customers get consistent, timely delivery.

## Products with a Focus on the Environment

For over half a century, Diversified CPC has been committed to protecting the environment by producing and distributing the highest quality and **purest propellants in the industry** that are extremely environmentally friendly. We also are at the forefront of innovation, technology, and engineering services to continue this commitment to protect our planet.
